

CyberOptics Corporation Added to the Russell 2000® Index

Minneapolis, Minnesota — July 3, 2017 — [CyberOptics® Corporation](#) (NASDAQ: CYBE), a leading global developer and manufacturer of high-precision 3D sensing technology solutions, announced that it was added to the Russell 3000® Index and the Russell 2000® Index when Russell Investments reconstituted its comprehensive set of U.S. and global equity indexes on June 26, 2017.

“We are pleased to be added to the Russell 2000, which reflects our continued efforts to create value for our shareholders,” said Dr. Subodh Kulkarni, President and Chief Executive Officer of CyberOptics Corporation.

Russell indexes are widely used by investment managers and institutional investors for both index funds and as benchmarks for passive and active investment strategies. CyberOptics will hold its membership in the Russell 3000 until FTSE Russell® reconstitutes its indexes in June 2018.

The annual reconstitution of the Russell 3000 captures the 3,000 largest U.S. stocks as of the end of May, ranking them by total market capitalization. The largest 1,000 companies in the ranking comprise the Russell 1000 and the next 2,000 companies comprise the Russell 2000.

About CyberOptics

CyberOptics Corporation (NASDAQ: CYBE) is a leading global developer and manufacturer of high precision sensing technology solutions. CyberOptics sensors are being used in general purpose metrology and 3D scanning, surface mount technology (SMT) and semiconductor markets to significantly improve yields and productivity. By leveraging its leading edge technologies, the company has strategically established itself as a global leader in high precision 3D sensors, allowing CyberOptics to further increase its penetration of its key vertical markets. Headquartered in Minneapolis, Minnesota, CyberOptics conducts worldwide operations through its facilities in North America, Asia and Europe.

Statements regarding the Company’s anticipated performance are forward-looking and therefore involve risks and uncertainties, including but not limited to: market conditions in the global SMT and semiconductor capital equipment industries; increasing price competition and price pressure on our product sales, particularly our SMT systems; the level of orders from our OEM customers; the availability of parts required to meet customer orders; unanticipated product development challenges; the effect of world events on our sales, the majority of which are from foreign customers; rapid changes in technology in the electronics markets; product introductions and pricing by our competitors; the success of our 3D technology initiatives; the success of CyberGage360; and other factors set forth in the Company’s filings with the Securities and Exchange Commission.
