

CyberOptics Announces the Appointment of Sy Creed as Americas Sales Director

Minneapolis — February 17, 2015— [CyberOptics® Corporation](#) (NASDAQ: CYBE), a leading global developer and manufacturer of high precision 3D sensing technology solutions, is pleased to announce Sy Creed as the Americas Sales Director, effective today. He will lead sales efforts for Surface Mount Technology (SMT) inspection system products in the Americas.

“I am honored to have this opportunity. I look forward to leading the CyberOptics sales team toward continued growth for customers in the Americas,” commented Creed.

Creed has more than 23 years of successful sales experience across a variety of products for the electronics assembly industry, serving OEM, EMS, automotive, and military/aerospace. Prior to joining CyberOptics, he served 18 years as Regional Sales Manager for American Hakko Products, a globally recognized leader, and manufacturer of soldering, rework, fume extraction, and related equipment for the electronics, industrial and hobby industries. Creed also holds an IPC-STD-001SE CIT certification.

He will be attending the APEX IPC Expo in San Diego that starts February 24th.

CyberOptics will be demonstrating the new SQ3000 Automated Optical Inspection (AOI) system with the advanced 3D Multi-Reflection Suppression (MRS) sensor technology that enables microscopic image quality at production speed.

About CyberOptics

CyberOptics Corporation (NASDAQ: CYBE) is a leading global developer and manufacturer of high precision sensing technology solutions. CyberOptics sensors are being used in general purpose metrology and 3D scanning, surface mount technology (SMT) and semiconductor markets to significantly improve yields and productivity. By leveraging its leading edge technologies, the company has strategically established itself as a global leader in high precision 3D sensors, allowing CyberOptics to further increase its penetration of its key vertical segments. Headquartered in Minneapolis, Minnesota, CyberOptics conducts worldwide operations through its facilities in North America, Asia and Europe.
